

Hospitality & Culinary Arts Center

Since 1963, Carteret Community College has benefited from a dedicated community of friends, supporters and alumni. Today, a few of those individuals remain permanently connected to the college through named spaces across our campus. Naming opportunities offer a chance to recognize individuals and organizations who have committed to the success and growth of the institution. Carteret Community College is excited to offer numerous opportunities to add your name to buildings and other structures throughout our campus. This can be a unique way to claim your legacy, celebrate an academic milestone, honor a loved one or admired instructor, or even showcase your organization or company. Show your community pride as well as your support for Carteret Community College.
