## AUTHORIZATION TO PAY PRIOR CHARGES 2022-2023

Student Name: \_\_\_\_\_

Social Security Number: \_\_\_\_\_

Federal regulations allow for a student to repay Federal aid funds for prior year charges with their current financial aid award, 34 CFR 668.164(d)(2)(ii). The student may authorize Federal student aid program funds to cover prior year charges that do not exceed \$200.00 by signing the statement below.

The student may also authorize Federal student aid program funds to cover charges from a prior semester in the same financial aid year by signing below.

A school must determine that payment would not prevent the student from paying for his or her current educational expenses (including both institutional charges and non-institutional costs of attendance).

- I authorize Carteret Community College to repay prior Federal Student Aid funds and other prior institutional charges with my current financial aid award.
  
- I understand that prior charges will not be included in my current semester charges and that remaining balances on Web Advisor and bookstore receipts will not include the prior charge. It is my responsibility not to overcharge my current semester account.
