Comments: All states except Delaware, Hawaii, Idaho, and Massachusetts are part of the National EMS Information System (NEMIS) - [Linked Here](#)

Emergency Medical Services (EMS)

This professional licensure and certification information is proprietary to the North Carolina Community College System.

STATE AUTHORIZATION INFORMATION

This information is provided to NCCCS institutions to provide the appropriate compliance disclosures so students can make informed decisions about their educational goals.

REQUIREMENT

Colleges offering EMS Training are required to provide general and direct disclosures to each student regarding the reciprocity of the program against other states.

State Authorization Professional Licensure Requirements:

Effective July 1, 2020 the U.S. Department of Education requires colleges to provide general and direct disclosures to students prior to making a financial obligation for all professional licensure and certification programs. Refer to the SA Requirements tab for specific details on this new regulation.

EMS Training Licensure\ Certification \ Credentialing\ Information

EMS licensure requirements vary by state and other individual factors; credentials, training, job experience, criminal history or military service.

Student applications are reviewed on a case-by-case basis. There are no standardized requirements across all 50 states for the EMS Training program.

EMS State Contacts

This workbook contains the individual state EMS program point(s) of contact, which include name, phone number, e-mail, and physical address.

What is NEMSIS?

<https://nemsis.org/what-is-nemsis/>

The National EMS Information System (NEMSIS) is an EMS industry data standard that promotes a uniform method of collecting information related to EMS patient care and operations.

NEMSIS helps defines the data fields required in electronic patient care reports (ePCRs) so that a paramedic treating a patient in Ohio is collecting data in the same way as an EMT in Arizona, even if they are using different ePCR or electronic health record (EHR) software.

Map of current NEMSIS participation across the 50 states and territories.

<https://nemsis.org/#tabs-1>

Only **four** states are not fully integrated with NEMSIS as of February 3, 2021 - Delaware, Hawaii, Idaho, and Massachusetts.

NEMSIS participating states are marked on their tab at the bottom of the workbook.

State Authorization Professional Licensure Information:

34 CFR 668.43(c) Direct Disclosures

1. Prior to enrollment, students must be notified in writing (direct disclosure) if the program does not meet OR the institution has not made a determination whether the program meets education requirements for licensure and/or certification in the state where the student is located.
2. The regulations state regarding the timing of these disclosures, the U. S. Department of Education (DOE) expects that the institution will provide this disclosure before a student enrolls into a program or in the event that an institution does not provide an enrollment agreement, before the student makes a financial commitment to the institution.
3. If the student is enrolled in a program and the institution makes a determination that the program does not meet educational requirements in the state where the student is located, the institution has 14 calendar days to notify the student in writing.

NOTE: Be sure to document that any required direct notifications (pre enrollment and/or address change) were sent. An easy way to do this is to ensure that a copy of the letter or email is kept within the student's academic record.

Complete details can be found on the NCCCS Virtual Learning Community website.

<http://boards.bsd.dli.mt.gov/med/ecp>

Contact Phone Number: (406) 841-2300

Contact Email Address: dliibsdmed@mt.gov

Montana does not offer true reciprocity with other states. However, Montana will accept either of the following as proof of licensure/certification: 1. Certification by the National Registry of EMTs equal to or greater than the level of licensure being requested in Montana.

2. Proof of licensure or certification at an equal or greater level in another state in which you tested for the license and which has a compliance (complaint) process. NOTE: If you received a license in another state by reciprocity and never took an exam in that state for licensure, there may be additional review of your application.
